# PRESS RELEASE

National ID Authentication Services

Date of Release: 19 September 2024
Reference No. 2024 – 014

Baguio City – The Philippine Statistics Authority – Regional Statistical Service Office continues to advocate authentication services that promote greater security in transactions through stronger methods of verification and lower risks of forgery through two platforms, the **National ID eVerify** and the **National ID Check**.

The new authentication services have been introduced, in partnership with the Department of Information and Communication Technology (DICT), to further the country's digital transformation process. The platform offers a trusted solution to enhance security and streamline the onboarding process to the National ID system of relying parties, especially for government agencies.

The National ID eVerify enables stronger verification of an individual's identity minimizing risk of fraudulent activities in transactions. It allows government agencies and private establishments to verify the authenticity of a person's Digital National ID. It features advanced facial recognition technology for real-time matching of an individual's face, among other registered information, with the National ID registry.

The National ID Check complements the eVerify platform. This is a simple, efficient, and secure way to verify the authenticity of any format of the National ID, including the Digital National ID, by scanning the QR code feature. It is also accessible via National ID eVerify (https://everify.gov.ph/check).

These services streamline transactions, enhance service delivery, and make it easier for individuals and organizations to verify identities in the Philippines.

For additional inquiries, visit the official National ID website (www.philsys.gov.ph) or Facebook page (www.facebook.com/PSAPhilSysOfficial/) for the latest updates. The PhilSys Registry Office can also be reached thru the hotline number 1388 or by e-mail at info@philsys.gov.ph.
