SPECIAL RELEASE

REGISTERED VITAL EVENTS IN IFUGAO 3rd Quarter 2020

Date of Release : 30 October 2020
Reference No. : SR-202010-016

This report summarizes the data gathered from July to August 2020 documents submitted from the local civil registry offices of the eleven municipalities in the province of Ifugao. The number of vital events in Ifugao for the 3rd semester reached 1, 124 registered documents. This represents 24.73 % increased from the 846 registered vital events from the previous semester. The province generated the following statistics: 813 for birth, 136 for marriage and 175 for death.

In this July to August 2020 issue, the Philippine Statistics Authority of Ifugao presents the number of births, marriages, and deaths registered by municipalities in the province. The data are preliminary result from the Decentralized Vital Statistics System 2011 based on the documents submitted by the Local Civil Registry Offices in Ifugao.

EXPLANATORY NOTES

VITAL STATISTICS are derived from the information obtained at the time when the occurrences of vital events and their characteristics are inscribed in civil register.

Vital acts and events are the births, deaths, foetal deaths, marriages, and all events such that have something to do with an individual's entrance and departure from life together with the changes in civil status that may occur to a person during his lifetime. Recording of these events in the civil register is known as vital or civil registration and the resulting documents are called vital records.

Data on vital statistics presented in the release were obtained from the documents registered at the Office the City/ Municipal Civil Registrars all throughout the country and forwarded to the Philippine Statistics Authority.

BIRTH STATISTICS

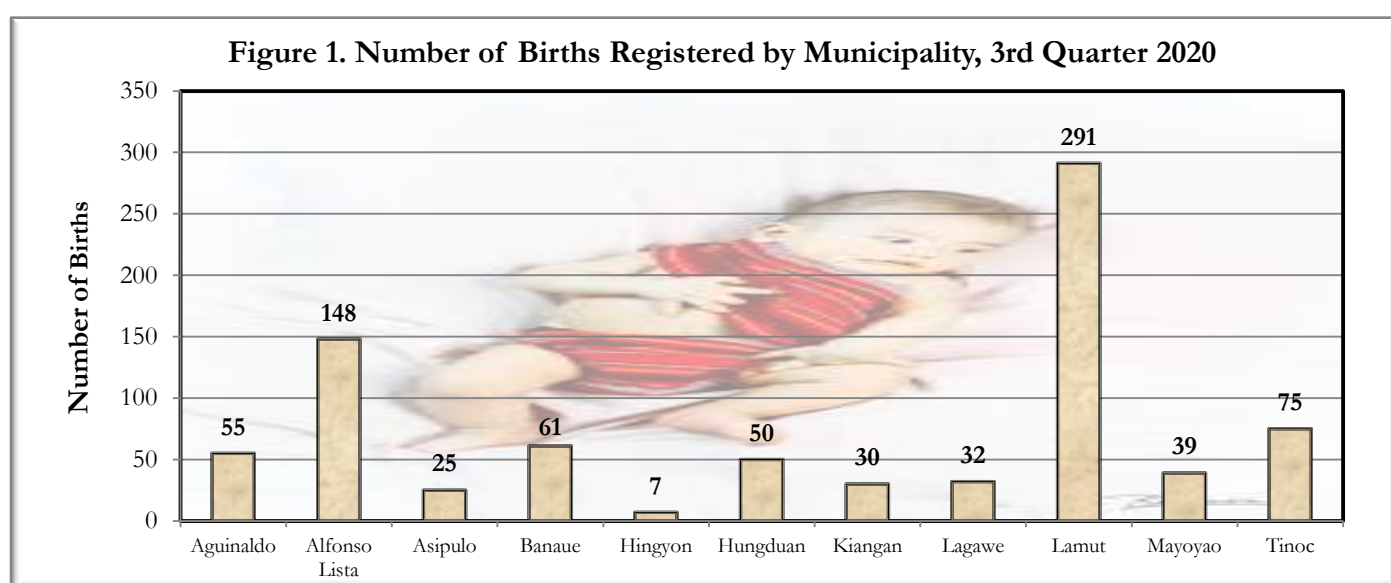

Registered live births increased by 22.14 percent

The number of registered live births in the province of Ifugao in the 3rd semester 2020 totalled to 813, higher by 22.14 percent from 633 registered live births in the 2nd semester 2020.

Lamut remained top registered live births in the 3rd quarter 2020

Among the 11 municipalities in the province, Lamut still recorded the most number of births in the province of Ifugao for the 3rd quarter of 2020 with 291, higher by 29.90 percent from 204 total registered births in the 2nd quarter 2020. Lamut is the location of the government hospital in Ifugao which is the Panopdopan District Hospital, hence, a high number of registered births were recorded. Other municipalities with high number of registered births are Alfonso Lista with 148 births, also with a district hospital and distantly behind are Tinoc with 75, Banaue with 61 and Aguinaldo with 55 births.

Meanwhile, the municipality of Hingyon had reported still the least number of births in the province with 7 or 0.86 percent of the total registered births.

Definition of Terms

VITAL STATISTICS are derived from information obtained at the time when the occurrences of vital events and their characteristics are inscribed in a civil register.

MUNICIPAL FORM NO. 102 (CERTIFICATION OF LIVE BIRTH) is the prescribed form being used for the declaration of facts and circumstances surrounding the birth of a person for purpose of registration.

MUNICIPAL FORM NO. 103 (CERTIFICATION OF DEATH) is the prescribed form being used for the declaration of facts and circumstances surrounding the death of a person for purposes of registration.

MUNICIPAL FORM NO. 97 (CERTIFICATION OF MARRIAGE) is used to record information pertaining to the marriage of the contracting parties. It contains information regarding the groom and the bride.

LIVE BIRTH is a complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy, which after such separation breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached; each product of such a birth is considered liveborn.

MARRIAGE is contract of permanent union between man and a woman entered into in accordance with law for the establishment of conjugal and family life.

DEATH refers to the permanent disappearance of all evidence of life at any time after live births has taken place (postnatal cessation of vital function without capability of resuscitation).
