

SPECIAL RELEASE

Livestock and Poultry Inventory Statistics in Kalinga: as of January 1, 2023

Date of Release: 25 May 2023
 Reference No. 23CAR32-533

Livestock Inventory

Livestock refers to farm animals kept or raised for consumption, work or leisure. For purposes of surveys, livestock covers only those that are tended and raised by operator.

In Kalinga, the major livestock (carabao, cattle, goat and swine) total inventory as of January 1, 2023 was 64,790 heads higher by 17.63 percent as compared to the same period in 2022 with 55,079 heads, as illustrated in Table 1.

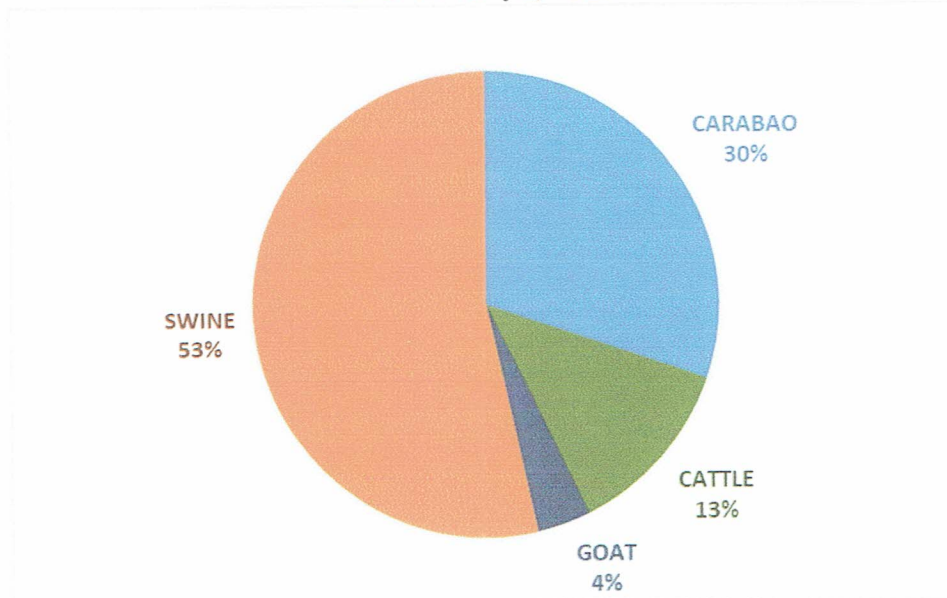

**Table 1. Livestock Inventory (head) by Type of Animal and Percent Change in Kalinga:
 As of January 1, 2022 and January 1, 2023**

Livestock	Inventory (in heads)		Percent Change
	January 1, 2022	January 1, 2023	
Total	55,079	64,790	17.63
Carabao	19,585	19,657	0.37
Cattle	8,217	8,100	-1.42
Goat	1,929	2,407	24.78
Swine	25,348	34,626	36.60

Figure 1 shows that of the 64,790 heads total inventory of major livestock as of January 1, 2023 in Kalinga, 34,626 heads or 53 percent of it were swine. Carabao contributes 19,657 heads or 30 percent of the total inventory of major livestock, cattle have an inventory of 8,100 heads or 13 percent of the total inventory. Goat contributes the least with an inventory of 2,407 heads or 4 percent of the total inventory of major livestock in the province.

**Figure 1. Livestock Inventory Distribution by Type of Animal: Kalinga
As of January 1, 2023.**

It was observed that all kind of major livestock in Kalinga increased in inventory as of January 1, 2023 compared to the same period in 2022 except for the inventory of cattle. It decreased by 1.42 percent from 8,2147 to 8,100 heads. Swine has the highest increased in inventory with 36.60 percent from 25,348 in January 1, 2022 to 34,626 in January 1, 2023 followed by goat with 24.78 percent increased. Carabao has the least increased with 0.37 percent. See figure 2.

TECHNICAL NOTES

The Livestock and Poultry Performance Report presents the performance situation in terms of inventory of carabao, cattle, goat, swine and by type of chicken and duck; and volume of slaughtered/dressed in the slaughterhouses and poultry dressing plants. Moreover, data for this special release were collected by the Philippine Statistics Authority (PSA) through the two (2) major surveys, namely: The Backyard Livestock and Poultry Survey (BLPS) and The Commercial Livestock and Poultry Survey (CLPS), data collection for livestock and poultry farms is done quarterly.

Another survey that supplements the data requirements of the Livestock and Poultry sector is the Compilation of Data Slaughterhouses and Poultry Dressing Plants (CDSPDP). This is done monthly and utilizes administrative data from National Meat Inspection Service registered and approved Licensed to Operate Meat Establishment (NMIS-LTOMEs) and Locally Registered Meat Establishments (LRMEs) in the province which is in coordination with the Provincial Veterinary Office (PVO) and Meat Inspectors (MIs).
