80 years and over	1,593	608	985

### Household Population by Municipality

The municipality of Conner had the biggest household population of 27,465, followed by Luna municipality with 21,172. The least was Calanasan municipality with 12,457. (Table 4)

Table 4. Household Population by Sex and Municipality, Apayao Province, 2020

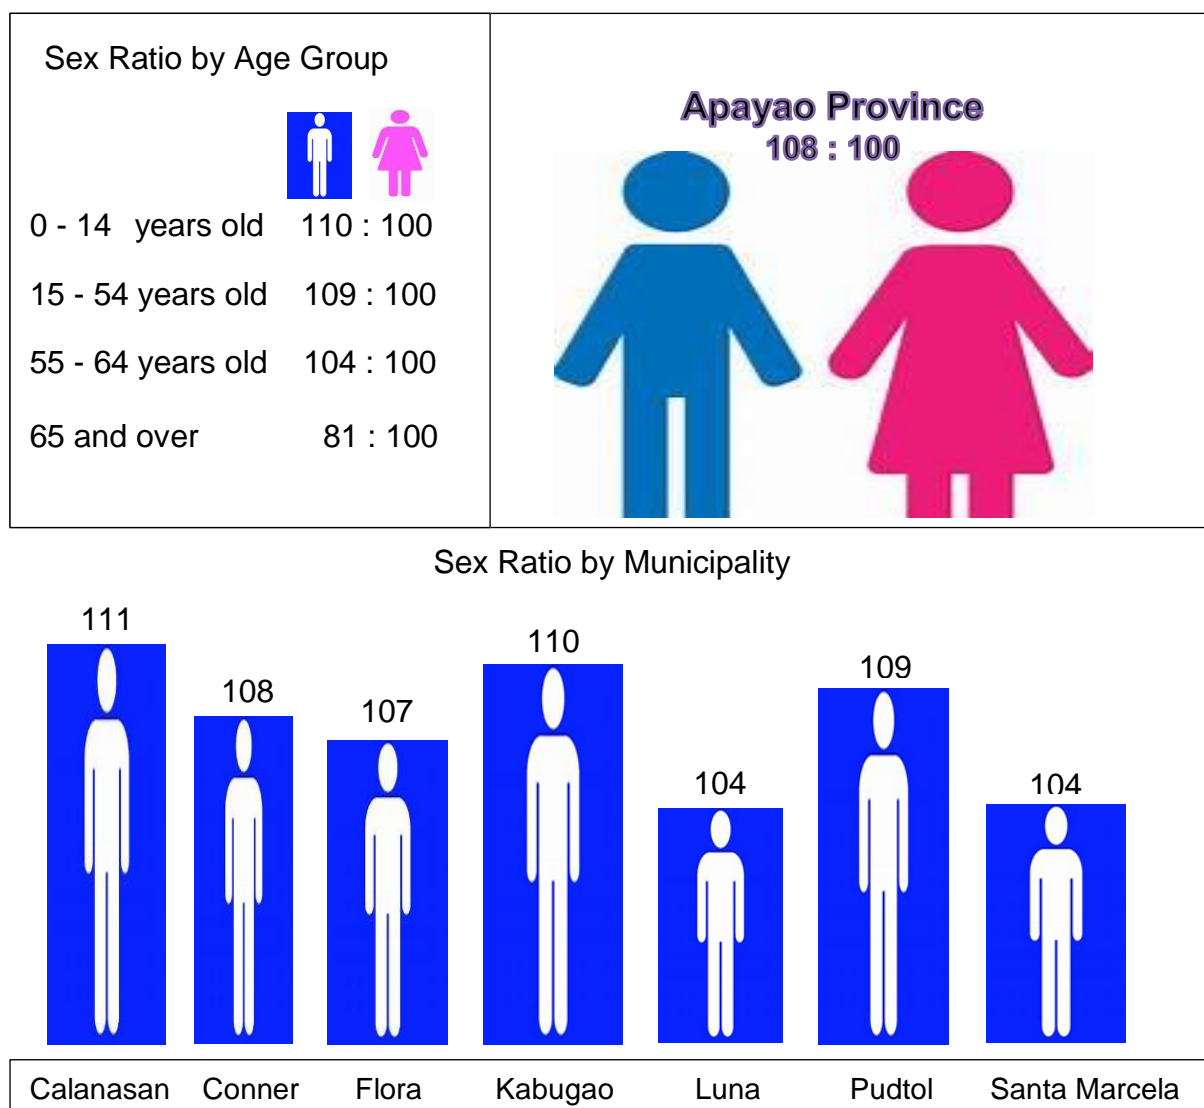

Province / Municipality	Both Sexes	Male	Female
Apayao Province	123,937	64,221	59,716
Calanasan	12,457	6,567	5,890
Conner	27,465	14,266	13,199
Flora	17,899	9,252	8,647
Kabugao (Capital)	16,173	8,485	7,688
Luna	21,172	10,811	10,361
Pudtol	15,474	8,064	7,410
Santa Marcela	13,297	6,776	6,521

## 2020 Sex Ratio

In 2020, Apayao province had a sex ratio of about 108. This means that there were 108 males for every 100 females. The computed sex ratio for age group 10 to 14 years old and for combined age group from 15 to 54 years old was 110. From 55 to 64 years old, the sex ratio was about 104, and further declined to 81 for age group 65 years and over. This depicts a longer life expectancy among females than males or a higher mortality rate among males than females in the older age groups. (Figure 6 and Table 3)

By municipality, Calanasan posted the highest sex ratio at 111 in 2020. It was followed closely by Kabugao municipality at 110. The least was Sta. Marcela municipality computed at 104. (Figure 6 and Table 4)

## TECHNICAL NOTES

### Limitations

Data gathered on employment in the government sector (national, provincial and municipal local government units) in Apayao province captures those that were employed for the Year 2022. It excludes the barangay local government units due to time constraint.

### Concepts and Definitions

**Permanent status of employment** – with security of work tenure.

**Contractual/ Casual** – Contract basis with entitlement of government benefits as received by those with permanent status.

**Contract of Service Worker /Job Order** – paid per day or month without the mandatory benefits that permanent employees receive.

**Household** - is a social unit consisting of person or group of persons who sleep under the same housing unit and have a common arrangement in the preparation and consumption of food.

**Household population** - refers to all persons who are member of the household.

**Population count** – refers to the total number of persons living as of 12:01 AM on 01 May 2020.

**Sex** - is the biological and physiological reality of being a male or female.

**Age** - refers to the interval of time between the person's date of birth and his/her last birthday prior to the census reference date. It is expressed in completed years or whole number.

**Sex ratio** - is the number of males per hundred females in a population.
