Inflation Rate in Mountain Province decreased to 3.0 percent

The inflation rate in Mountain Province decreased to 3.0 percent in April 2025, recording a decrease of 0.9 percentage points from 3.9 percent in March 2025. In April 2024, the inflation rate was lower at 1.8 percent. The inflation rate of the province is higher compared to the overall inflation rate of the Region at 2.0 percent.

Food and Non-alcoholic Beverages is the main contributory to the downward trend of the April 2025 Inflation Rate

The main contributory to the downward trend of the slower inflation rate based on weight of commodities was primarily due to the deflation of Food and Non-alcoholic Beverages which decreased to 2.0 percent from its 3.8 percent inflation rate in March

2025. Additionally, a decrease in the inflation rates was noted in the following commodity groups during the month:

- a. Transport; -1.6 percent;
- b. Information and Communication; -0.1 percent; and
- c. Restaurant and Accommodation Services; 3.8 percent.

In contrast the commodities, Alcoholic Beverages and Tobacco; Housing, Water, Electricity, Gas and Other fuels; Furnishings, Household Equipment and Routine Maintenance; Health; Recreation, Sport and Culture and Personal Care and Miscellaneous Goods and Services recorded an increase in their inflation rates at 5.2, 8.8, 0.9, 4.6, 0.6, and 3.1 percent in that order.

Meanwhile, inflation rates of the commodities Clothing and Footwear; Education Services and Financial Services remained at 0.9, 0.0, and 0.0 percent respectively when compared to their previous months' data (Table 1).
