Notes:

*Fully Owned are land operated with a title of ownership in the name of the holder and consequently, the right to determine the nature and extent of the use of the land. Included in this category are lands whose absolute ownership is vested in the holder through sale or inheritance. A parcel, which is a part of the farm, is also considered fully owned if the holder has an absolute deed to the sale of the land. Likewise, lands of the tillers with Emancipation Patent are considered fully owned.

*Owner-like Possession are land under conditions that enable a person to operate it as if he/she is the owner although he/she does not possess a document as proof of title of ownership. A land under owner-like possession includes those that are held under heirship which the document as proof of title of ownership has not been transferred to the heirs. Also included in this category are inherited lands without document as proof of title of ownership and those held under tax declaration. Further, this category also includes areas without legal title of ownership which is operated uncontestedly and uninterruptedly by the holder for a period of 30 years or more, even without the permission of the owner, and lands being purchased on installment basis or under long-term contract.
